

*The human foot is a masterpiece of engineering and a work of art – Leonardo da Vinci*

# Diabetic Foot Awareness for Beauty and Wellness Therapists

To learn more  
scan me

In collaboration with  
Louella Belle a new online  
course is now available

Anyone providing foot related treatments (such as Pedicurists and Reflexologists), can be an immensely helpful pair of eyes, ears and hands for clients who live with diabetes. Could you be part of the solution to help reduce the 190 diabetes related amputations that take place in England each week? That is more than one per hour and 80% are believed to be preventable!

This workshop aims to equip you with an understanding of the diabetic foot and the ability to spot the signs of foot problems, thus increasing confidence of:

- When to treat and when to leave alone
- What everyday footcare advice to offer clients with diabetes
- And much more!

A summary of the content of the workshop can be found on our website at [www.duetdiabetes.co.uk/hands-on-feet-diabetes-training](http://www.duetdiabetes.co.uk/hands-on-feet-diabetes-training)

For up to twelve people, we can deliver this training 'in house' at your place of work, exclusively for your organisation.

### Face to Face Workshop

Each learner will be provided with a printed delegate pack and certificates will be distributed electronically after the workshop has taken place.

### New Online Course

In collaboration with Louella Belle, this course includes a pre-recorded workshop providing you with the same content as a live webinar session.

A copy of the slides, additional supporting information/resources and certificate is provided electronically via the Louella Belle Training Academy platform.

Please scan the QR Code below to find out more or to purchase this course. [www.louellabelle.academy](http://www.louellabelle.academy)

Learn at a time and pace that suits you!
