

## Diabetic Foot Screening

This training is for all health and social care practitioners, who are involved in examining the feet of people with diabetes. Using NICE guidance as a framework the workshop aims to equip the learner with the knowledge and skills to competently examine and screen the diabetic foot for potential and actual problems.

### It includes:

- Understanding UK national guidelines
- The who, why, when & how
- Identification of risk factors

- Use of risk stratification algorithms & actions to take
- Footwear, daily footcare & education
- Practical demonstration by the educator

'Hands on Feet' practical session for all attendees at face to face workshops'

## Diabetic Foot Screening Training

For up to 14 people, we can deliver this training 'in house' at your place of work, exclusively for your organisation.

Occasionally we arrange face-to-face open workshops, where individual places can be booked. Alternatively, if you would like to offer your facilities as a venue for an open workshop, or work with us to arrange an open workshop in your geographical area, please contact us.

Each learner is provided with a comprehensive printed delegate pack\* and certificates are distributed electronically after the workshop has taken place. Complimentary refreshments are available at open workshops.
